

RapidDoc™ Kiosk System

for the Samsung Tab A 10.1"

SAMSUNG
BUSINESS

Designed With Tablet Modularity In Mind

An affordable investment that supports your business strategy and future upgrades.

Modular Design with Lowest Total Cost of Ownership

Universal base offering support and connectivity for multiple OEM tablets and operating systems. Supports any ArmorActive Enclosure with the ease of use and future upgrades as new tablets are introduced into the marketplace.

Flexible and Secure User Authentication

Multiple Tablet release options:

- RFID (included)
- Supports:
 - Software unlock (Pin code)
 - User name and password
 - Biometric (Fingerprint)
 - Near-frequency communication (NFC)

Highly Integrated Mobility Solution

Easily fits into the work environment, 6 USB Ports for peripherals, Wired Ethernet.

Durable Enclosure

- Polycarbonate/ABS Plastic Alloy
- Easy to clean with medical grade cleaners
- Drop test protection
- Integrated hand strap

Engineered for Tablet Mobility

RapidDoc System solves many of the challenges associated with how tablets are used in business.

Quick and Easy Dock and Un-Dock

A fluid and seamless latch technology securing the tablet into place with RFID release technology.

Full Power & Data Technology

Once tablet is docked, charging begins and data transfer initiates, protecting customer information.

Payment Peripheral Integration Options

Direct hardwired integration with up to 2 peripherals in the ArmorActive Enclosure; Ethernet and up to 6 USB ports in the Table Stand.

User Friendly Hand Strap or Shoulder Strap

Increases tablet interaction and protection for mobility applications.

Flexible Integration & Installation

The RapidDoc System makes it easy to deploy your tablet mobility initiatives.

Multiple Mounting Options

VHB or metal plate for the counter, standard gang box for the wall, or standard 75mm VESA for wall or counter.

Hidden Cable Management

Clean display, power cords are protected & routed within the base (optional accessory required).

Multiple Orientations

Easily adjust to Portrait or Landscape mode based on software application/responsive design.

Easy-to-Implement Point of Sale System

Perfect mPOS solution for increased revenue and mobility, without adding a lot of complexity to your business systems.
