Keeping Personal Locker
Safe and Convenient.

2WAY Method Digital Locker Lock

MI-1200

2WAY (Secret Code, Digital Key) method
keeping personal lockers more
convenient and safer

Maintenance UP with Master Function Support!

Manager is able to manage product's whole function and setting by inputting Master Code & Master Digital Key.

Although the single-use mode, secret code inputted in personal mode, and digital key is lost, master secret code may be managed anytime, controlling the product.

Master Digital Key has the equal function and right as the master secret code and is able to register up to 3, providing convenience for use.

※ Above image cut may differ to the actual as it is for aiding one's understanding

Usability UP for Single-use Mode & Personal Mode Support!

Both single-use and personal mode may be used by easily changing the mode depending on the place and situation.

Single-use Mode

- Used for lockers of which the user may vary
- Automatic deletion after single-use secret code is used
- Selection out of 5 different modes is able depending on the secret code digital key use purposes.

(Hospital Locker)

(Golf Course Locker)

(Library Locker)

Personal Mode

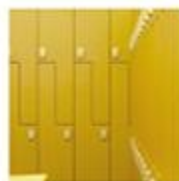

- Personal Locker only used for a certain time
- Able to use once personal secret code is registered
- Selection out of 4 different modes is able depending on the secret code digital key use purposes.

(School Individual Locker)

(Gym Personal Locker)

(Company & Factory Locker)

Convenience UP through Digital Key Use!

Through the use of digital key, it may be conveniently utilized more quickly.

All modes are able to use including master mode, single-use model,
and up to 15 may be registered for personal mode.

※ Digital Key: Separate Purchase
