

Fire Alarm Bell

FB-6

ISO 9001, CE Approved

Description :

The Fire alarm bells an equipment controlled by the fire receiver terminal or repeater and sounds awarning as a fire accident occurred.

The gong are made from select alloy steel chosen to give the load, resonant tones necessary in fire alarm and life safety system.

Advantages :

1. The way of motor-driven is taken at the low consumption of current, to reduce the load for power output from receiver terminal
2. This design of expection structure is sturdy and durable. The bell even can ring to last 40 hours without decline of performance and structure.

Specifications:

Model	FB-6
Rated Voltage	DC 24V
Rated Current	30 mA
Gong Size - Diameter	ø 6" (150 mm)
Sound Output	90 db @ 1 meter
Motor Material	3.0 mm Alloy aluminium
Ambient Temperature	0 - 55 °C
Relative Humidity	10 - 95 %RH
Dimensions	ø 150 x 55 mm
Color	Red
Weight	414 g
